Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I also feel that this charge may be necessary for some varieties of service, but should not be charged to people using prepaid cellular phone services. As a full time student, I travel 6 hours home each weekend to see my child. My tracfone is used strictly for this trip. As a student, I cannot afford any raises to the prepaid services as I am barely able to afford what I do have. Thank You.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
